

ParadEyes.com, VisionWeb, and Optivision Optical Lab Partners

Eliminate the need to re-key patient information—enter data once.

Are you looking for an easy-to-use online ordering resource where you can order, manage, and track spectacle lenses and frames orders from one location? Then look at ParadEyes.com, First Insight's optical lab network.

Place and track orders to and from many VisionWeb® labs using the built-in interface with VisionWeb and MaximEyes—without accessing the VisionWeb website or rekeying order information. Submit traces with your orders.

MaximEyes practice management software alerts you to possible errors before you send your order via ParadEyes.com. Before submitting electronic spectacle lens orders to VisionWeb labs, you must purchase the MaximEyes–VisionWeb Link from First Insight and register as a member with VisionWeb.

Listed below are ParadEyes.com, VisionWeb® (*), and Optivision® (**) optical labs that partner with ParadEyes.com.

Alabama

Hoya Vision Care – Birmingham
